Dear Dr. Porter and staff:

I sincerely thank you for your support and putting me on a path to wellness. A total sceptic about the chiropractic industry I had never believed that they could help with my scoliosis diagnosed when I was 15 years of age; I am now 62.

TESTIMONIAL:

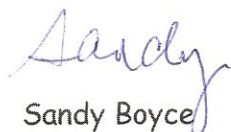

2 months of lying on the floor, tears in my eyes from pain in my back and across my hips in the front! My family practitioner had an x-ray taken and the diagnosis was not only the scoliosis, but rotation of the spine and degenerative disc disease to the lower back. She did not recommend any treatment.

It was my massage therapist who persuaded me to go to a chiropractic and recommended your office-after just 2 visits the tears stopped! Frankly, I am amazed that the treatment has worked so well, no pain therapy or drugs or discussions of surgery; just ice, core exercise and alignments.

It is also the enthusiasm and knowledge of the practice you have shared each visit that has contributed to me being a consistent client. I have truly become a believer in the miracle of the body healing itself by treating it to alignment.

Thank you again!

Sincerely,

Sandy Boyce
